Hire of Bouncy Castle at Silvester Horne Institute

The Bouncy Castle (referred to in the document as “inflatable” and/or “device”) has been purchased with LEADER funding and is available to hire for childrens’ parties taking place **inside** the Silvester Horne Institute.

Those hiring the SHI for parties requiring the use of the inflatable(s) shall be provided with two copies of these conditions. They shall read the following conditions and sign both copies, indicating they have understood the terms under which they are permitted to use the inflatable(s) and will abide by those conditions, returning one copy to the Town Clerk and retaining the second copy for their reference.

THE FOLLOWING CONDITIONS MUST BE ADHERED TO AT ALL TIMES.

The Hirer will ensure that:

- There will be at least one responsible adult for every 5 children using the inflatable device and each of these adults has received prior instructions from the Town Council on the safe use of the inflatable(s) – please see attached information from Aviva
- Boisterous and larger children should be separated from smaller ones and numbers on the inflatable should be restricted to allow the users enough room to play safely .
- All users shall
 - remove their footwear and any other hard, sharp or dangerous object
 - do not consume food/drink or chew gum
 - do not bounce on the step/front apron of the device
 - do not climb or hang on the outside walls
- persons who are taller than the outside walls (when standing on the device) are not allowed to use the device.
- that the entrance/exit is not obstructed

Attendants (i.e. responsible adults) must possess sufficient maturity to enforce safe use and to stop horseplay or inappropriate use. They must constantly monitor the activity on the inflatable, discouraging any horseplay. The first sign of any misbehaviour should be corrected by the use of a whistle or similar means of attracting attention. Attendants should not allow overloading of the inflatable.

For their part, the Town Council will ensure that:

All devices are inspected

- (a) prior to each booking
- and

- (b) at least annually by a competent person and the records of such inspections retained by the Town Council for 3 years
- and

- (i) all defects or risks to health & safety immediately rectified

or

(ii) the device taken out of use until satisfactorily repaired

I have read and understood the foregoing conditions and agree to abide by them.

Signed
